PROFILE SUMMARY

Highly motivated Software Engineering and Cyber Security professional with strong expertise in programming, database management, and full-stack web development. Skilled in modern technologies with hands-on experience across multiple real-world projects. Passionate about Python development, Machine Learning, and building secure, scalable applications. A dedicated team player with excellent problem-solving and analytical skills

EDUCATION

IQRA UNIVERSITY

2023 - 2025

- Associate degree Program in Cyber Security

Institute Of Business Administration (NAVTCC)

Sept-Dec 2025

- Advance Python Programing

Aptech Learning

2021- 2023

- Advance Diploma in Software Engineering

SKILLS

Programming Languages:

- Python (Django, Flask, Fast API)
- Java • C# • PHP/Laravel (Filaments)
- JavaScript • Tailwind CSS
- Bootstrap •

Python ML / Data Science:

- NumPy • Pandas • Matplotlib
- Seaborn • Scikit-learn
- TensorFlow (Basics)
- OpenCV (Basics)

Databases:

- MS SQL Server • MySQL • SQLite
- MongoDB • Fire Base

EXPERIENCE

- Designed and developed a fully functional E-commerce website as part of a team of projects.
- Implemented user authentication, product catalog, and shopping cart features.
- Integrated third-party APIs (e.g., payment gateways, social media platforms) to enhance website functionality.
- Utilized JAVA, Python/Django, and PHP/Laravel for backend developments

PROJECTS

- ❖ **Auto Boli** — A modern Vehicle Trading application developed using Laravel 12 and PHP 8.3, featuring a powerful admin panel, complete CRUD operations, secure authentication system, and High weight SQLite database integration. Built with a focus on performance, scalability, and cleanliness.
- ❖ **Airmont Library System** — A robust e-commerce platform built with Laravel 12 and PHP 8.3, featuring a comprehensive admin panel, full CRUD functionality, secure authentication and efficient data management using SQLite. Designed to deliver a seamless user experience with scalable and maintainable architecture.
- ❖ **Ori-Flame** — HTML, CSS, JavaScript Front-end E-Commerce UI with a responsive layout.

LANGUAGES:

English: Intermediate

Russian: Basics

WORK EXPERIENCE

DA Prime Solution

Junior Full Stack Developer

(June-August 2025)

- Built a comprehensive Admin dashboard with CRUD operations for managing products, categories, orders, and users.
- Implemented secure authentication and authorization using Laravel's built-in security services.
- Designed and developed responsive front-end UI using HTML5, CSS3, Bootstrap, and JavaScript to improve usability and customer engagement.
- Integrated SQLite as the primary database and optimized queries for better performance and reliability.
- Worked on RESTful APIs for product data handling, user interactions, and administrative tasks.
- Performed testing, debugging, and code optimization to enhance system stability and speed.

Salesground.ai

Full Stack Developer Internship

(Aug-Oct 2025)

- Worked with Filament PHP to build and customize the admin panel, including tables, forms, resources, and dashboards.
 - Designed and styled responsive front-end components using
 - Tailwind CSS, improving UI consistency and user experience.
 - Contributed to building CRUD features, authentication modules, and role-based access control.
 - Integrated SQLite as the database and performed query optimization to enhance application performance.
 - Developed and consumed RESTful APIs for product listings, user operations, and admin functionalities.
 - Participated in debugging, testing, and ensuring code quality through collaborative feedback sessions.
 - Gained hands-on experience in full-stack development
 - workflows, deployment basics, and version control using Git/GitHub.
-
